Hi Joan,

I recommend a minor change to item 4). I think A2 adjustment should have a prior approval from the AUC for a downward adjustment and also an upward adjustment.

4) A Class A2 adjustment may be considered in the circumstances described in sections 2.6 (3); however, in these cases, prior approval must be obtained from the AUC before conducting an ambient sound level survey. Upon receiving such a request for approval, the AUC will determine if a Class A2 adjustment is appropriate, and if so, the AUC will specify measurement requirements for the ambient sound level survey.

Regards,

Jason Cao

Hello,

The Commission has decided to conduct a consultation process specifically with stakeholders who commented on ambient sound level and A2 adjustments during the current Rule 012 revision project.

After considering comments you submitted on ambient sound level and A2 adjustments during the written consultation process and during the technical meeting, the Commission

proposes to revise Section 2.6 of Rule 012. A blackline version of the revised Section 2.6 is attached in this email.

If you have comments on the proposed changes to Section 2.6, please email them to Joan Yu at joan.yu@auc.ab.ca by **September 26, 2023**. The Commission requests your comments/edits be focused exclusively on the proposed changes to Section 2.6.

Thank you and best regards.

Joan
