Apex Utilities Inc. Special Charges Schedule (continued)

Non-Refundable Contributions

Applications for service will require a non-refundable contribution. In most cases, a standard contribution is all that is required. Services uneconomic with a standard contribution will require an additional non-refundable contribution.

Standard Non-Refundable Contributions

Standard contributions are filed for acknowledgment with the Commission when they are initially established and, thereafter, whenever they are changed. For a current list of our standard non-refundable contributions, please refer to Page 1 of this Special Charges Schedule or contact us toll-free using our General Inquiry phone number to find current rates.

Non-Standard Non-Refundable Contributions

Winter Construction – Should the service be requested for installation under winter construction conditions, the customer is responsible for the incremental frost charges.

Other – If it is not economic to consider an application for service under a standard contribution, it will be evaluated individually to determine a specific, non-refundable contribution.

Calculation of Specific Non-Refundable Contributions

The calculation of a specific non-refundable contribution will be based on a net present value analysis applying the following criteria:

- a) An estimate of the total capital costs of providing service;
- b) An estimate of the total annual operating costs of providing service;
- c) The *Commission*-approved return on common equity, interest rate, depreciation rates, income taxes, and capital structure;
- d) An estimate of the expected net revenue that will accrue from the addition of the service.

The additional contribution will be the amount required to make the net present value of the revenue stream equal the revenue requirement stream.
